## DISC GOLF FEATURE (PRO TIP)

### Disc Golf Winter Tips

1. Use Winter Plastic. The cold weather is going to change how your discs feel in your hand.
2. Adapt to Disc Flight Changes. If you've ever played disc golf in the cold, you might have noticed that your discs don't fly the same.
3. Dress for Winter Success. As the seasons change and the temperatures drop, you're going to be playing in less than ideal conditions.
4. Join a Putting League. If you don't want to face the cold weather, why not just play indoors? That's what an indoor putting league can allow you to do.
5. Change your Expectations. Just like you aren't going to play your best in the wind, you aren't going to play your best in the cold.

### BUD PELL DGC

**Course Closure Update:** the property owner said we should have use of the Bud Pell course at least through December and possibly until next Spring. Land development could start at any time and the course could close immediately.

### VAN ZEE PARK DGC

WSDGA approved course improvements are in progress:

- 1) "Mandatory" sign was added to hole 5. Hole 6 "Mandatory" sign will be installed soon.
- 2) Tee signs will be updated for the holes listed as 1 through 9 with Red and White tees. The alternate tee areas will no longer be marked as holes 10 through 18. The UDisc course maps have been updated. New tee signs coming soon.
- 3) In November, Hole 1 basket will be moving right 50 feet and into the trees. The Red tee for hole 2 will be moved to accommodate the new hole 1 basket location.
